

Pioneering new ways of farm & food

Controlled Environment Agriculture – global food security through new agricultural production systems is one of the central tomorrow's tasks. "Inhouse Farming – Feed & Food Show" is the DLG's new platform for the agricultural and food systems of the future. Closely networked with agricultural practice, it offers technical information, perspectives, innovations and business – from feed to food.

Topics

- Vertical Farming
- Alternative Proteins
- Aquaculture, Aquaponics
- Algae
- High Value Crops
- Cellular Agriculture
- Energy concepts
- Insects

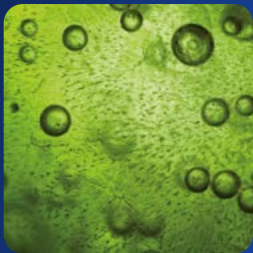

"We see the future of plant-based food production in vertical farming. This great potential can only be exploited with the know-how of agriculture."

Sascha Rose (Start-up entrepreneur, founder of Roko Farming)

EuroTier^{DLG}
First in animal farming.

2024 – EXHIBITION PROGRAMME

■ Exhibition

Meeting point Inhouse Farming: Technology. Systems. Raw materials. Processing.

■ Expert Stage

Controlled Environment Agriculture: current topics and trends

■ Spotlight

Inhouse Farming – focus on latest concepts and technologies

■ Award: DLG Impulse Pitches

Technological innovations, integrated CEA concepts, innovative agricultural and food systems

NEW: Combo-Offers – Profit from our Inhouse Farming Network!
